TO WHOM IT MAY CONCERN:

I highly recommend Dennis Marcellino as an entertaining and informative speaker. We invited Dennis to share his conversion story and he did a wonderful job. He has a background of having reached high levels as a professional entertainer and performer and it certainly showed in his presentation as the audience of 1000 responded very well to his passion, humor and music. He also performed a couple of his songs, one before and one after the speech. Like I told Dennis in an e-mail after I listened to his CDs: The "New Beginning" CD put me into ecstasy. Dennis has been given a beautiful gift from God in his music. It is a beautiful ministry. His Christmas CD is the best Christmas CD I've ever heard.

As a speaker he was easy to work with and very cooperative. He stayed on schedule which is very important. He spent some time afterwards talking to conference participants, signing books and CDs and told me that he was being stopped in the halls with people coming up to him to congratulate him. For example, one woman came up and told him that of all the speakers, she enjoyed his presentation best and was moved to tears by his story.

Sincerely yours,
